Added pre-biotics MOS & FOS help aid digestive health

#### JOINT SUPPORT

Naturally occurring collagen helps maintain healthy joints and skin.

#### **SUPERFOOD BLEND**

A blend of 5 carefully selected superfoods each with their own benefits.

### ITALIAN BUFFALO

Italian Mediterranean Buffalo are a breed of water buffalo most commonly raised outdoors in Southern Italy. In comparison to traditional beef, buffalo is considered to be a lean red meat which naturally has a lower fat content and is high in protein. Buffalo is thought to be a novel

source of protein in pet food, and therefore can make a great alternative for dogs with intolerances to certain proteins.

### **SUPERFOODS**

BASIL: Rich in betacarotene, which play an important role in maintaining healthy vision.

BLACKBERRY: Good source of Vitamin C known for it's antioxidant properties which may help support the immune system.

FLAXSEED: Natural source of omega 3 fatty acids which have antiinflammatory properties and support skin, coat and joint health.

**APPLE:** Source of dietary fibre to help support digestive health.

**TURMERIC:** Turmeric is a source of antioxidants which act as an antiinflammatory and can help to soothe the digestive tract.

### NATURALLY OCCURRING COLLAGEN

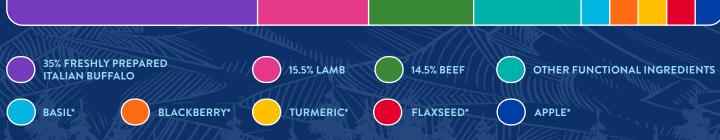

Your 35% Minimum Freshly Prepared Italian Buffalo has naturally occurring Collagen.

- Naturally occurring collagen is found in freshly prepared ingredients
- Provides important building blocks for the body

145 - 2458	40 kg +	410g+
	PER DAY (g)  25 - 85g  85 - 145g	PER DAY (g) OF DOG (kg)  25 - 85g  20-30 kg  30-40 kg

\* All dogs are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual dog. When changing foods please introduce gradually over a period of two weeks. Always ensure fresh, clean water is available.

Your Superfood 65 recipe has an 18 month shelf life. A selection of bags are available to meet your customer's needs. Please refer to the Partner Portal for more details or contact your account manager. Bag images shown for illustrative purposes only.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903.

As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets

or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely.

Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
