DIGESTIVE HEALTH

Added pre-biotics MOS & FOS help aid digestive health

JOINT SUPPORT

Naturally occurring collagen helps maintain healthy joints and skin.

SUPERFOOD BLEND

A blend of 5 carefully selected superfoods each with their own benefits.

BRITISH FREE-RANGE CHICKEN

Free-range poultry generally have a higher protein content than commercially raised chickens. Happier, healthier chickens are thought to produce tastier meat due to lower cortisol (stress) levels which may toughen up meat. Chicken is a

lean protein source, rich in essential amino acids and a good source of vitamins and minerals including B vitamins & iron to help overall health & well-being.

SUPERFOODS

GINGER: A source of Potassium to help with nerve and muscle functions.

ARTICHOKE: Source of Vitamin B3 an important cofactor in carbohydrate, protein and fat metabolism.

POMEGRANATE:

Source of Vitamin C which has an essential role in collagen synthesis important to help maintain healthy bones.

BLUEBERRY:

Blueberries have antioxidant properties which may help to protect cells from damage and help support the immune system

KALE: Source of Vitamin A to help maintain healthy vision.

NATURALLY OCCURRING COLLAGEN

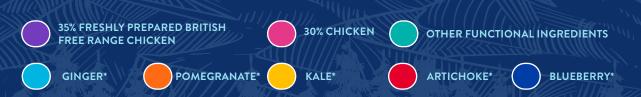

Your 35% Minimum Freshly Prepared British Free Range Chicken has naturally occurring Collagen.

- Naturally occurring collagen is found in freshly prepared ingredients
- Provides important building blocks for the body

10-20 кд	140 - 2409	40 Kg +	400g+

* All dogs are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual dog. When changing foods please introduce gradually over a period of two weeks. Always ensure fresh, clean water is available.

Your Superfood 65 recipe has an 18 month shelf life. A selection of bags are available to meet your customer's needs. Please refer to the Partner Portal for more details or contact your account manager. Bag images shown for illustrative purposes only.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903.

As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets

or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely.

Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
