

# GA PRODUCT GUIDE Grain Free Range

GA Product Code: **GFP** 

## Chicken

with Turkey, Salmon, Sweet Potato & Carrot

### **Puppy**

#### **Grain Free Range**

The **Grain Free** range includes a selection of the finest freshly prepared nutritious and highly digestible animal protein sources.

The range has been formulated with sweet potato and potato to be suitable for those with grain intolerance/sensitivity.

#### Why Chicken?

**Chicken** is a **lean** protein source rich in essential amino acids. It is also a good source of vitamins & minerals including B vitamins and iron which **help** contribute to overall health and well-being.

#### Why Sweet Potato?

**Sweet potato** is **low in fat**, and may also benefit digestive health as it is a **rich source of dietary fibre**.

#### Why Carrot?

**Carrot** is known for being a **good** source of vitamin A in the form of beta carotene which **helps** support eye health and vision.

#### **Recipe Claims**

#### Minimum 26% Freshly Prepared Chicken, Turkey & Salmon

#### 60% Total Chicken, Turkey & Salmon

#### Joint Care Pack

To help support cartilage metabolism for the growth of healthy joints in puppies.

## Added Omega 3 Supplement

To help support cognitive and visual development.

#### **Sweet Potato**

An excellent alternative to grains, sweet potato is a complex carbohydrate high in B vitamins.

### No Added Artificial Colours & Preservatives

Naturally preserved using rosemary extract.

<sup>\*</sup> All dogs are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual dog. When changing foods please introduce gradually over a period of two weeks. Always ensure fresh, clean water is available.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. GA cannot be held liable or responsible for nutrients without first getting approval from GA. GA cannot be held liable or responsible for nutrient contributions from free issue (client supplied) raw materials without specific clarification in writing. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability. If any formulation amendment becomes a permanent change we will update the formulation matrix information and confer this to the purchaser.
