Why Duck?

Duck is a lean, nutrient-dense source of protein and also provides nutrients such as iron, selenium, B vitamins and zinc which contribute towards general health and well-being.

Why Sardines?

Sardines are nutrient-rich oily fish, that are a great source of omega 3 fatty acids which provide support for skin and coat condition and joint health, as well as vitamin B12, an essential nutrient required by the body for DNA synthesis, energy production, and central nervous system function.
